4/5/01

Judge Starzynski,

I have seen several articles in the news lately about bonuses for Furr's executives. I am amazed and concerned.

These are the very same individuals who have made the poor decisions which have taken our company into bankruptcy. And now they expect to be rewarded for their ineptitude.

I am an hourly employee and have worked for Furr's, Inc. for five years. I do my job well and serve the public with pride. All of us have lost hours during this difficult time. Some of us have lost benefits and some have been laid off.

At the same time, there has not been a single cut in any management salary at any level. As they have cut workers' hours the company has become more + more top heavy.

Please do not allow a single penny in bonuses to any member of Furr's management. Let's take this money and increase service provided to our customers and our communities.

Sincerely,

Ed Steck
